

**Escaping Poverty Traps**  
*Connecting the Chronically Poor  
to Economic Growth*

**Josette Lewis** is USAID Director of the Office of Agriculture, and she has been with USAID for more ten years. She served first as a AAAS Science, Technology and Diplomacy Fellow working on farmer-participatory sustainable agriculture research. After her fellowship, Dr. Lewis managed an Israeli-Arab collaborative research grants program. For more than seven years now, Dr. Lewis has led USAID's agricultural biotechnology effort and served as a technical advisor to USAID on issues and policies pertaining to biotechnology. She oversees USAID activities globally, with a significant emphasis on Africa, including support for research and technology development with public and private sector partnerships, technology transfer, intellectual property rights, bio-safety regulatory development, and public outreach. Dr. Lewis was the 2002 recipient of the AIARD Younger Professional Award and received a B.S. in Genetics from University of California at Davis and Ph.D. in Molecular Biology for University of California, Los Angeles.
